Wenderful Surgical Operation—Removal of Urinary Stones from the Hiadder Successful Mr. Simeon Thetsell, of Saugerties, N. Y., had been treated for seven years by various physicians for what they call Stricture of the Uretha, without benefit. He finally consulted Dr. David Kennedy, of Rondout, N. Y., who found his trouble to be urinary calculi or stones of the bladder. The doctor at once removed the foreign bodies with the knife and then gave his great blood Specific, Favorite Remedy, to prevent their reformation. The entire treatment was eminently successful and Mr. Tietsell's recovery was rapid and perfect.

While Favorite Remedy is a specific in all kidney and bladder diseases, it is equally valuable in cases of billious disorders, constipation of the bowels and all the class of ills apparently inseperable from the constitution of women. Try it. Your druggist has it and its cost is only one dollar a bottle. The lucky man is he who puts this advice in practice. Don't forget the name and address, Dr. David Kenedy, Rondout, N. Y. The Doctor would have it understood that, while he is engaged in the introduction of his medicine, "favorite remdy," he still continues the practice of his profession, but codfines himself exclusively to office practice. He treats all diseases of a chronic character, and performs all the minor and capital operations of surgery.
